

No worries
with my
personal monitor

Acting for you when you can't.

Mindr Mobile Personal Monitor

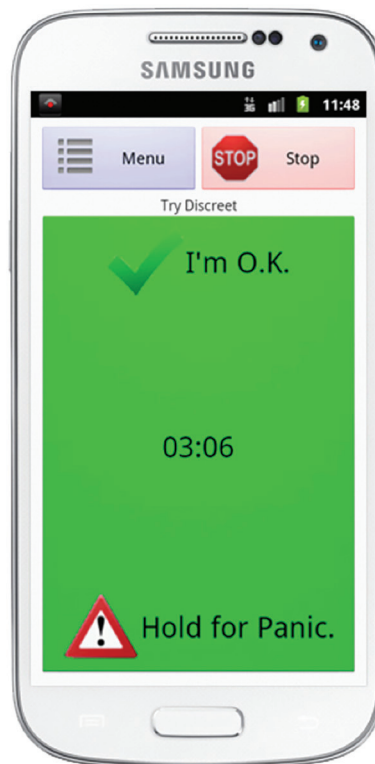

How it works: It sends ALERT messages via text message, email, or voice call, to your chosen contact. **Activity settings:** enter your typical daily activities and your contact will see your activity in the ALERT message. You can enter your Trip Details in this area on the home screen, along with your current photo.

The unique DISCREET options:

others won't see that the App is running on your Smartphone, and won't be able to turn off the App. The warning reminder feature appears as an incoming call screen, so people with you are not aware that the App is checking on you.

Start using Mindr Mobile Personal Monitor app solution now, on iPhone, Android (i.e. Samsung), and Blackberry (i.e. BB 10 and previous operating system).

Download a free trial from app stores, or www.mindrmobile.com

A simple, affordable Personal Monitor Smartphone App to give peace of mind to you and your loved ones, that will proactively check on them, and send an alert if needed.
