Monitor
goes to work
with me.

Acting for you when you can't.

Are you or your employees at risk?

"Precautions should be used when workers are alone, and working away from a central office. Unexpected events in unfamiliar environments can increase the risk of violence or injury to employees."

Source: Canadian Centre for Occupational Health & Safety

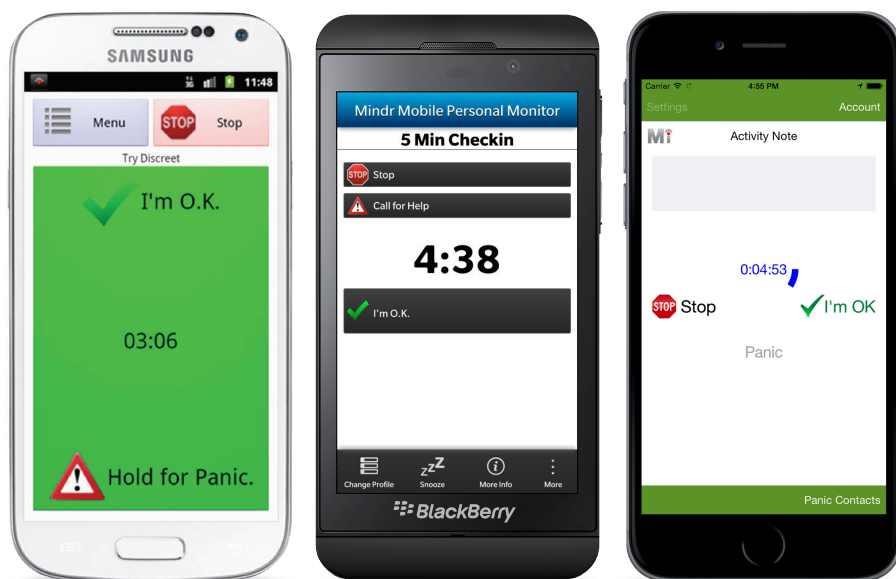

Personal Monitor

How it works: It checks on you and if you don't respond by tapping the screen, an ALERT with your GPS location will be sent to your contact via text message, email, or voice call.

Use precautions when working alone, away from a central office. Unexpected events at unfamiliar properties can affect your ability to deal with threats to your safety.

Start using Mindr Mobile Personal Monitor app solution now, on iPhone, Android (i.e. Samsung), and Blackberry (i.e. BB 10 and previous operating system).

Download a free trial from app stores, or www.mindrmobile.com

"A simple, affordable Personal Monitor Smartphone App to give peace of mind."

Personal Monitor will regularly check on you and sends ALERT messages if you can't respond.
