

**keeping your loved ones safer
with mobile technology**

Mindr Mobile Personal Monitor

How it works: It sends ALERT messages via text message, email, or voice call, to your chosen contact. **Activity settings:** enter your typical daily activities and your contact will see your activity in the ALERT message. You can enter your Trip Details in this area on the home screen, along with your current photo.

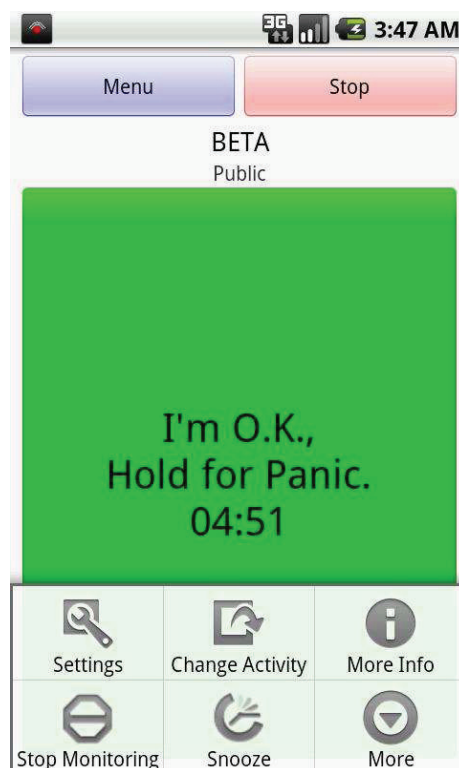

The unique DISCREET options:

others won't see that the App is running on your Smartphone, and won't be able to turn off the App. The warning reminder feature appears as an incoming call screen, so people with you are not aware that the App is checking on you.

You can also use the Mindr Mobile Personal Monitor as a personal assistant, to keep you in touch with your loved ones, like your teenage children, or aging relatives. You have relief knowing that they are being checked by the Mindr Mobile Personal Monitor.
